WASHINGTON POOL

An Encouraging Outlook - In the "Grasshopper" a Body of Ore Has Been Found 300 Feet in Width,

Washington Camp, Dec. 24. Editor Citizen: It has been an as far a distance as the received with allow, but completely ignore the fact that within 75 miles of their cry ground, shot, the pistel dropped and that within 75 miles of their cry ground, shot, the pistel dropped and presence.

The races at the Silver Lake Drivmines innumerable can be seen, which respect these at a much greater dis-

A short time ago a large number of which compose the Washington pool, Not only have there been immenses bedies of mineral expessed, but of such bodies of mineral expessed, but of such of White's hands as he felt I then by Christmas were not wanting. In quality as to guarantee their futur

A list of the mines and their present outlook cannot fail to attract the attention of all who are interested in mines A PTORNEYS at Law, Tucson, Arizona. Of the Southern Arizona, to say nothing fice on Pransigion strest, near Parist & of those who are so fortunate as to be connected with the company into

In the Emma a cross-cut 90 fee has been run, all of which is in excellent ore, and another of 30 feet, which exposes a beautiful body of carbonate and galena ores. A shaft on the west wall is down 30 feet, in which the assessment work is now being done.

The Columbia is looking well and bids fair to hold its weil-known reputation as being one of the "bose mines of the "pool." The Columbia now shows ore which assays 45 ounces in silver and 42 per cent, in lend. In the St. Louis yesterday they

struck an immense body of carbonate. In the eastern shaft of the Chicago fine ore has been encountered, and it looks accidadly encouraging. In the Community the entire shaft is

in fine ore, and improving as they go down. Work was commenced this morning on the Prince, and the mine looks

promising. The Grasshopper at a depth of 17 feet shows a flattering result. At the extreme south end a rich body of red oxide of copper has been struck which H. F. FARLEY. averages 40 per cent. In this mine may, at different places, be seen large bodies of carbonate and galena, which assays well. The width of this ledge is not known, but from all indications but a few days will clapse before it will be disclosed to the enermous extent of 300 feet, as it is but a little way off from these figures at this

> The Cinnamon, Chief and Blue Jay are all looking well and improving in

writing.

It is strange that these mines have not been purchased long before this, as none but the most bigoted can fail to comprehend their great value at a pany, of New York. Office in Plana County glance. Their location is all that can be desired. This camp stands second to none in the Territory for health and beauty, while wood and water of the finest quality can be had in abunaption | dance, and what is more important, unusually convenient. In purchasing mining properties the above facts must be thoroughly investigated, as upon the authority of the New York Engineering and mining journal I can state that they are, in every sense of the word, of vital importance.

These mines have been examined by experts of unquestioned ability, and their reports have invariably been of the most flattering, despite the opinions of a few who setk to injure them by unjust decisions.

There is little doubt but that these ANDS, MINES, ROADS, DI CHES, mines will soon support a large and Town Sites, etc., surveyed, and maps of flourishing camp, which will do came made on the most reasonable terms. credit to Southern Arizona, and in fact one which the Territory may well somera c renay be proud of. That the mineral is there cannot be disputed, all being necessary is a little energy and the usual amount of money, of both of which the purchasing company are abundantly supplied.

A Handsome Establishment. One of the events of Christmas Day was the grand opening at the Elite, where genial Jack Pantlind had provided for his callers such a lay-out of egg-nogg and cold turkey as was never town in a few weeks, we request all our cred iters who may have halances against us to pre sent them at once for settlement. We also request all persons who are indebted to us to request all persons who are indebted to us to remember and active their settlements. tasteful and handsome manner in

Clear as Mud.

"CURLY BILL."

His Examination Concluded Before Justice Neugass-Important Testimony for the Defense-The Austice's

M., Decomber 28. — The notorious gang of outlaws, com-posed of about 25 inen, who, under the leadership of "Billy, the Kid," A Sensational Report That Mark have for the past six months overrun Eastern New Mexico, burning and committing other deeds of outlawry. was broken up last Saturday morning by the killing of two and capturing of four others, including the leasure. The jail, and threats of lynching them were prevalent but the vigilance of the captors, Deputy Sheriff Garrett and others, prevailed. Yesterday afternoon Garrett and the other caponers for the purpose of taking them to Santa Fe., Sheriff Romero remonstrated against taking Rudabaugh, one of the prisoners, who killed a Las legas Deputy Sheriff, to Santa Fe, made a formal demand for the prisoners, but was told that if he wanted the prisoners to come and take them. The Sheriff then stationed men at the engine to come the engineer, and the balance of the Sheriff's posse crowded about the train platforms, which were also occupied by additional guards.

TULLY. and nearly all the windows in the cars were used as part-holes for rifles. Somebody suggested to take the prisoners now. Stewart, of Garrett's party, said: "The instant the first snot is fired we will unloose every man and arm him." For a while a fight seemed imminent. Chief Engineer Robinson appeared and denanded that the train be allowed to proceed, and the master of transporation said if the train was not allowed o depart he would arm all the railroad men and take it out. Detective J. F. | St. Louis .. Morley, of the Postoffice Department, umped into the cab with a pair of six-shooters and told the engineer to A compromise was efected by which it was agreed that Santa Fe with the party, and if the
